## Planning Dept. Plan Review Requirement Guidelines for the Building Counter

It is recommended that any new residences, new accessory buildings, and all full site developments submit to the Planning Department prior to building permit submittal.

### The following do not require Atherton Planning Dept. Approval

- **Re-roof** – that does not change the height, size, or shape of the structure.
- **Interior remodel/ renovations** – that do not add floor area or increase habitable space.
- **Roof mounted PV systems**
- **Grading & Drainage**
- **Pool remodels** – that do not increase the pool area/ change the location.
- **Replacement AC units** – that do not change size or location of the units.
- **Repairs** – that are simply change outs or maintenance. Any exterior equipment that is relocated or enlarged may need to be reviewed for setbacks and noise.
- **Minor Accessory Buildings** - less than 120SF, 8 feet in height and meeting locational requirements.
- **Minor Accessory Structures** – bridges and walkways over ponds, mailboxes, flagpoles and outside lighting on poles not over 3 feet, flat work less than 6 inches, wells less than 6 inches and 10 feet or more to any property line, seat walls not over 24 inches, bird baths and pedestals.
